SUMMARY

Results-driven React JS Developer with over two years of experience at a fintech startup, specializing in both frontend and backend development. Passionate about creating intuitive UIs and developing scalable solutions through cross-functional collaboration. Proficient in modern web technologies and backend systems, with a commitment to continual improvement. Seeking a challenging role in a dynamic environment where I can leverage my expertise to drive innovation and contribute to cutting-edge software development.

TECHNICAL SKILLS

Languages: Javascript, Typescript, Java, Python
Frameworks: Material UI, Tailwind, Node.js
Developer Tools: Git, Jest Unit Testing, Vitest, MongoDB
Libraries & Softwares: React, CSS, Adobe Illustrator, Figma, Canva

EXPERIENCE

Software Engineer - Frontend Developer   Jun 2023 – Present
Ruptok Fintech Pvt. Ltd. (Fracto Ventures Pvt. Ltd.)   *Delhi, India*
- Spearheaded the development of a SaaS fintech product utilizing React, Tailwind, and TypeScript within a 4-member frontend team.
- Boosted UI development efficiency by creating reusable React components for seamless integration of Figma designs, while achieving an 85% improvement in app responsiveness.
- Coordinating team efforts by task assignment, troubleshooting issues with problem solving, and conducting thorough code reviews to maintain code quality and consistency at an impressive 90%
- Implemented robust unit testing using Jest and Vitest, fortifying the codebase for scalability and reliability.
- Facilitated collaborative refinement of the product within a 14-member team, fostering open dialogue and idea exchange for continuous improvement.

Software Development Engineer   Apr 2022 - Apr 2023
Gemini Solutions Pvt. Ltd.   *Gurgaon, India*
- Committed 12 months to backend development, implementing 15+ major features and enhancements.
- Developed 30+ RESTful APIs using Node.js, TypeScript, JavaScript, MongoDB, Express, Swagger, etc.
- Built reusable components with React.js and leveraged AWS services such as SQS and Agenda jobs.

PROJECTS

FitBit | *React, Tailwind, Material UI, Lucide, Headless UI*   Jan 2024 – Jan 2024
- FitBit, a web application catering to fitness trainers, facilitating streamlined appointment management.
- Used React, Tailwind with local storage to build a user-friendly interface with calendar view.

SendMail App | *Javascript, Node.js, MongoDB, SendGrid API*   Aug 2022 – Aug 2022
- Developed a secure email sending application using Node.js, JavaScript, MongoDB, and the SendGrid API. Implemented JWT authentication and Bcrypt encryption for enhanced security.

Real-Time Chat App | *React.js, Node.js, Socket.io, JavaScript, HTML, and CSS*   Jun 2022 – Jul 2022
- Developed a real-time chat app using React.js, Node.js, Socket.io, JavaScript, HTML, and CSS. Users can join chat sessions with shared links/room codes and view active participants.

EDUCATION

GLA University, Mathura   Uttar Pradesh, India
B.Tech - Computer Science & Engineering (Specialisation in AIML)   *2019 - 2023*

OTHER ACTIVITIES

TEDxGLAU & E-Cell GLAU
Worked as a Student Mentor, making significant contributions in Web Development and Graphic Designing.
Conducted a workshop on graphic design sharing insights and practical skills to enhance their design capabilities.
